AS A PART OF A NATURAL PROCESS AND WHEN ANTIBIOTICS ARE NOT MANAGED PROPERLY, MICROBES DEVELOP RESISTANCE.

RESISTANT MICROBES CAN THEN BE SPREAD IF HAND HYGIENE IS NEGLECTED AGAIN.

INFECTIONS ARE OFTEN (SOMETIMES UNNECESSARILY) TREATED WITH ANTIBIOTICS.

DID YOU KNOW THAT WASHING YOUR HANDS IS KEY TO PREVENTING ANTIBIOTIC RESISTANCE?

NOT WASHING YOUR HANDS COULD LEAD TO:

INFECTIONS
