Consulting Activities

“Assessing the Care of Vulnerable Elders (ACOVE) project, Potential Quality Indicators and Literature Review: Pressure Ulcers”, Consultant. November 1998—March 1999. Agency: RAND Corporation, Santa Monica, CA

“Assessing the Care of Vulnerable Elders (ACOVE)-3 project, Potential Quality Indicators and Literature Review: Pressure Ulcers”, Consultant. February 2005—November 2005. Agency: RAND Corporation, Santa Monica, CA

“Minimum Data Set Subject Matter Expert Panel to match Clinical Related SNOWMED terms and MDS Pressure Ulcer and Incontinence Items.” Expert Panel Member, January 2006. Centers for Medicare and Medicaid Services, Office of Clinical Standards and Quality, Quality Measurement and Health Assessment Group, Baltimore, MD.

“The Minimum Data Set Version 3.0 Instruction Manual”. Consultant for the Skin Section revisions. February-April, 2008. PI: Debra Saliba, MD, MPH, UCLA David Geffen School of Medicine, Division of Geriatrics, RAND Corporation.

“AHRQ Task Order #10; Preventing Pressure Ulcers in Hospitals”. Project Advisory Panel Member. 2008-2010. PI: Dan Berlowitz, MD, MPH, Professor, Boston University School of Public Health, Dept. of Health Policy and Management.

Agency for Healthcare Research and Quality's (AHRQ) Effective Health Care (EHC) Program, Skin Substitutes for Treating Chronic Wounds, Key Informant & Reviewer. 2018

HONORS AND SPECIAL AWARDS:

- 1992 Best Master's Degree Paper in Nursing, Sigma Theta Tau - Gamma Tau Chapter - University of California Los Angeles
- 1995 Third Place Poster exhibits--Wound care programs, Educational tools, Classification schemes--1996 Symposium on Advanced Wound Care & Medical Research Forum on Wound Repair.
- 1996 First Place Poster exhibits - Clinical Research - 1995 Symposium on Advanced Wound Care & Medical Research Forum on Wound Repair.

- 1997 University of Southern California Faculty Award-Honorable Mention
Phi Kappa Phi Honor Society
- 1997 Baranoski Founder’s Award in recognition of creative practice strategies that have enhanced the care of wound care clients
- 1997 Bullough Award for Faculty Excellence,
University of Southern California, Department of Nursing
- 1999 Outstanding University of California/LA Alumni Graduate Student Nominee from
University of California, Los Angeles, School of Nursing
- 1999 Nurseweek Nursing Excellence Award in the category of Innovation, Finalist
- 2002 American Geriatrics Society Clinical Trials Presidential Poster Award,
Washington, D.C.
- 2010 “60 Alumni that made a difference”, Named Distinguished Alumni, UCLA
School of Nursing, May 2010.
- 2010 JWOCN Research Award for manuscript entitled, "Subepidermal Moisture is
Associated with Early Pressure Ulcer Damage in Nursing Home Residents with
Dark Skin Tones: Pilot Findings". June 13
- 2010 Distinguished Scholar. Eastern Carolina University School of Nursing, North
Carolina. September 19-20.
- 2010 Visiting Scholar. City of Hope National Research Center, Duarte, California
September 8-9.
- 2010 Fellow, American Academy of Nursing, inducted November 2010.
- 2011 Founder’s Award for outstanding contributions to wound care, Symposium on
Advanced Wound Care, April 14, 2011.
- 2011 Association for the Advancement of Wound Care Achievement Award for
contributions to the Society, April 15, 2011.
- 2013 Distinguished Alumni Lecture, UCLA School of Nursing
- 2016 Visiting Research Professor, University of Tokyo, Tokyo, Japan
- 2016 Visiting Professor, Royal College of Surgeons, Ireland, Dublin, Ireland
- 2016 Visiting Professor, Southampton University, Southampton, UK
- 2018 UCLA School of Nursing, Faculty Award for Excellence in Nursing Science
- 2020 Fellow, Association for Advancement of Wound Care, inducted December 2020
- 2021 Kosiak Award from the National Pressure Injury Advisory Panel for significant
contributions to the prevention and management of pressure injuries through
leadership in research, education and practice.

RESEARCH GRANTS AND FELLOWSHIPS RECEIVED:

Source	Purpose	Amount	Dates	Role
Small Business Innovation Research Program, Phase I Grant, NCRNR (now NINR)	“Automation of the Pressure Sore Status Tool”. A 1-year study to automate the Pressure Sore Status Tool and tie the tool to wound treatment algorithms.	\$49,960	1993— 1994	Co- investigator
Convatec, A division of Bristol-Myers Squibb, Princeton, New Jersey	“A Quantitative Analysis of Wound Characteristics as Early Predictors of Pressure Sore Wound Healing”.	\$5,000	1997— 1998	Principal Investigator

Source	Purpose	Amount	Dates	Role
	Grant funds to assist with statistical analysis of doctoral dissertation data.			
UCLA Older Americans Independence Center (OAIC) Pepper Center Pilot Research Grant	<p>“The Effect of a Feeding Assistance Program to improve Nutrition On Skin Health Outcomes in Nursing Home Residents”</p> <p>The purpose of this study was to evaluate skin health using visual skin assessments and surface electrical capacitance methods of detecting early pressure ulcer damage among nursing home residents who were also participating in a feeding assistance trial.</p>	\$20,000	2002— 2003	Principal Investigator
K01 Mentored Scientist Career Development Award, NINR 5K01NR008749	<p>“Improving Pressure Ulcer Care in Nursing Homes”.</p> <p>Evaluating use of a quality assessment system based on clinical practice guidelines and the Assessing Care for Vulnerable Elders process indicators for pressure ulcers on pressure ulcer care process delivery when the system is translated into practice and implemented by nursing home staff.</p>	\$253,515	7-01-04— 6-31-08	Principal Investigator
UCLA Interdisciplinary Health Care Research Center (IHCRC) Pilot Research Grant	<p>“Improving pain detection among nursing home residents with a staff management model”</p> <p>This study aimed to implement and evaluate a novel education and training system using short video vignettes and audit and feedback strategies for improving pain detection and management by nursing home staff with a focus on elucidating pain in cognitively impaired residents.</p>	\$30,000	7-10-04— 7-01-05	Principal Investigator
Sigma Theta Tau National Nursing Honor Society, UCLA Chapter	<p>“Validating Visual Skin Assessments: Using Biophysical Measures to Determine the Presence of Erythema and Early Stage Pressure Ulcers”</p>	\$5,000	3-15-05— 3-01-06	Principal Investigator

Source	Purpose	Amount	Dates	Role
	The purpose of this study was to analyze data from a larger study to explore the relationship between using a measure of skin and tissue edema measured with a handheld device and early pressure ulcer development in nursing home residents.			
UCLA School of Nursing Intramural Start Up Grant	“Validating Visual Skin Assessments: Using Skin Surface Temperature to Determine Early Stage Pressure Ulcers” The purpose of this study was to evaluate use of skin surface temperature gathered with a thermistor as a method of detecting and predicting pressure ulcers in nursing home residents.	\$25,000	3-1-07— 3-1-08	Principal Investigator
Agency for Healthcare Research and Quality (AHRQ) and California Health Care Foundation (CHCF). (PI-Horn, S)	“On-Time Prevention of Pressure Ulcers: Partnering with Quality Improvement Organizations” The goal of this study was to implement a standardized computerized system for monitoring skin health in nursing homes involving all levels of staff using a collaborative implementation model and to evaluate the outcomes of the program.	\$13,042 Sub-contract with UCLA	1-1-07— 12-31-07	Co-investigator
Department of Veterans Affairs, Rapid Response Proposal, Health Services Research & Development RRP 07-347 (PI-Guihan, Marylou)	“Assessing a biophysical device to predict pressure ulcers in SCI” The primary objective of this study is to gather pilot data on the relationship between a biophysical measure of SEM and PUs in veterans with SCI in preparation for a larger study to fully examine use of the measure as an interim step to developing an intervention to prevent PUs in veterans with SCI.	\$75,000	10-1-07— 4-30-08	Site Principal Investigator
NINR R01 Award to USC, School of Occupational Therapy 5R01HD056267 (PI-Clark, F)	“Lifestyle Redesign for Pressure Ulcer Prevention in SCI” The objective of this randomized controlled trial is to test an intensive occupational therapy	\$106,835 Sub-contract with UCLA	7-1-08— 6-30-13	Co-Investigator

Source	Purpose	Amount	Dates	Role
	intervention of individual lifestyle redesign and education regarding pressure ulcer prevention to reduce pressure ulcer incidence and severity in community dwelling persons with spinal cord injury.			
UCLA Academic Senate Faculty Grant	“Standardizing protocols using a biophysical device as a method of detecting pressure ulcers in nursing home residents” This pilot study tested use of strategies to improve accuracy and reliability of handheld dermal phase meters used to measure subepidermal moisture as a method of detecting early pressure ulcer damage.	\$10,000	6-1-08— 6-30-09	Principal Investigator
UCLA School of Nursing Intramural Grant	“Standardizing protocols for using a biophysical measure to detect pressure ulcers” The purpose of this study was to standardize the data collection protocols in 3 nursing homes for using a handheld device to measure SEM as method of detecting pressure ulcers in nursing home residents as base for conducting a larger study.	\$25,000	6-1-08— 6-30-09	Principal Investigator
UCLA Center for Vulnerable Populations	“A Biophysical Measure To Detect Pressure Ulcers In Elders With Dark Skin Tones” This study analyzed data on a subsample of persons with dark skin tones from pilot studies examining use of SEM as a method of detecting early pressure ulcer damage.	\$10,000	9-1-08— 8-31-09	Principal Investigator
R01 NIH National Institute of Nursing Research NINR 5R01NR10736	“Biophysical Measure To Predict Pressure Ulcers In Nursing Home Residents” This study is focused on addressing the need for better identification of early skin damage and pressure ulcers by evaluating use of sub-epidermal moisture (SEM) determined by	\$1,253,530	7/15/09— 6/30/14	Principal Investigator
