CONTRIBUTION TO THE SUCCESS OF EWMA

I have many years of clinical, teaching and scientific experience, as well as experience in the organization and realization of congresses, schools, symposiums and workshops in the field of multidisciplinary treatment of chronic wounds, i.e. wounds that are difficult to heal.

Given that I am a university teacher, as well as having the title of a scientist, I would like to:

1. to exchange the acquired knowledge with colleagues in Europe,
2. to participate in joint planning and realization of conferences, symposiums, and workshops,
3. to work on the scientific analysis of data in basic scientific research, within the defined projects of EWMA, in various treatment modalities, such as: negative pressure, immune response, blood derivatives.

I would publish the research results with colleagues from EWMA in top international journals, in accordance with EWMA's policy regarding journalistic activity.

The activities mentioned above can significantly contribute to highlighting the mission of EWMA.

FIELD OF WORK

1. plastic and reconstructive surgery
2. cosmetic surgery
3. minimally invasive procedures in cosmetic surgery - application of surgical threads
4. anti-aging procedures
5. reconstructive head and neck surgery
6. hand surgery
7. microsurgery
8. tumors of skin and soft tissues (excision, evacuation of lymph nodes of axillary and groin regions, sentinel lymph node biopsy)
9. burns and frostbite
10. congenital anomalies
11. war plastic and reconstructive surgery
12. chronic wounds - surgical and conservative treatment
13. vacuum assisted compression therapy
14. chronic wound dressings
15. use of blood derivatives in the treatment of chronic wounds

CURRICULUM VITAE

Author of many scientific papers, published in international journals, and presented at national and international congresses.

Participated in the scientific research project "Prognostic and predictive significance of genetic and epigenetic changes in solid tumors" (Medical Faculty of the Military Medical Academy, Belgrade, Serbia).

Member of national professional organizations (Serbian Association for Plastic, Reconstructive and Aesthetic Surgery, Serbian Wound Healing Society, Medical Chamber of Serbia)

Member of an international professional organization (European Wound Management Association – EWMA)

Participated in the organizational and program committees of international and domestic scientific and professional conferences.

Speaks English (certificate of Ministry of Defence, 2021.-2025.)

2023. Scientific Title: Scientific Associate (Ministry of Science, Technological Development and Innovation, Republic of Serbia, University of Defence in Belgrade, Medical Faculty of the Military Medical Academy, Belgrade, Serbia)

2023. Representative of Serbia at the European Wound Management Association Conference (Milan, Italy)

2022. University Teaching Title: Assistant Professor (scientific area of surgery, scientific subfield of plastic surgery and burns) (University of Defence in Belgrade, Medical Faculty of the Military Medical Academy, Belgrade, Serbia)

2022. official advanced training, in the field of plastic surgery, hand surgery, and chronic wounds, in the form of visiting surgeon and PhD (University hospital Zurich, Clinic for plastic surgery and hand surgery, Zurich, Switzerland)

2022. Representative of Serbia at the European Wound Management Association Conference (Paris, France)

2022. Representative of Serbia at the World Union of Wound Healing Societies Congress (Abu Dhabi, UAE)

2022. and onwards. Head of septic burns department, Clinic for plastic surgery and burns, Military Medical Academy, Belgrade, Serbia

2020.-2021. Work with Covid-19 patients in Red zone of Military hospital Belgrade, Serbia

2019. and onwards. Honorary member of Balkan Military Medical Committee

2019. delegate at the Assembly of the Serbian Medical Society (a branch of Military Medical Academy)

2018. PhD in medical sciences, doctoral dissertation: "Association of PAX3 and TMTC2 Gene Polymorphisms with Three-dimensional Coordinates of Soft Tissue Cephalometric Points after Facial Skin Tumor Excision" (University of Defence in Belgrade, Medical Faculty of the Military Medical Academy, Belgrade, Serbia)

2017. delegate for secondary and tertiary health care institutions, Belgrade Regional Medical Chamber (Serbian Medical Chamber)

2016. and onwards. National representative of Serbia in the European Wound Management Association (EWMA)

2016.-2020. President of the Serbian Wound Healing Society

2013. and onwards. Reviewer and a member of the scientific advisory board of the Balkan Military Medical Review

2013.-2018. Secretary General of Serbia in the Balkan Military Medical Committee

2012.-2018. Teaching Clinical Assistant in the subject Plastic and Reconstructive Surgery, Department of Surgical Sciences I, Faculty of Medicine, Military Medical Academy, University of Defense, Belgrade, Serbia

2009.-2022. Departmental Doctor, Clinic for Plastic Surgery and Burns, Military Medical Academy, Belgrade, Serbia

2009. and onwards. Specialist in Plastic and Reconstructive Surgery (Military Medical Academy, Belgrade, Serbia)

2004.-2009. Specialization in Plastic and Reconstructive Surgery (Military Medical Academy, Belgrade, Serbia)

2003. Master of science in medicine, area of surgical anatomy: "Anatomical Relationships of the Preperitoneal Space of the Region of the Inner Opening of the Inguinal Canal Assessed in Minimally Invasive Operations for Inguinal Hernia" (University of Belgrade, Faculty of Medicine, Serbia)

2000. and onwards. Permanent employment in the Ministry of Defence of Serbia

1997. Doctor of Medicine (University of Belgrade, Faculty of Medicine, Serbia) (1991.-1997.)

1997. advanced training at the Hospital of the Brazilian Society of Research and Assistance for Craniofacial Rehabilitation (SOBRAPAR), Campinas, Sao Paulo, Brazil

1996. participant of the 3rd European Medical Students Eurotalk in German language (Freiburg, Germany)

1993.-1997. Teaching assistant for medical physiology at the Institute for physiology (University of Belgrade, Faculty of Medicine, Serbia)

SRBPRAS

SRPSKO UDRUZENJE ZA PLASTICNU, REKONSTRUKTIVNU I ESTETSKU HIRURGIJU

COVER LETTER RECOMMENDATION

Belgrade, Serbia, December 28, 2023

Predsednik
Prof. dr Nenad Stepic

Assistant professor Scientific associate Sasa Milicevic, MD, PhD, specialist of plastic and reconstructive surgery, Head of Department for septic burns, Department of burns, Clinic for plastic surgery and burns, Military Medical Academy, Ministry of Defence, Serbia, has passed 6 years program at the Faculty of medicine, University of Belgrade, on 1997, after what he has got a diploma of Medical Doctor, and on 2003 he has got a diploma of Master of Medical Sciences, at the same faculty.

Potpredsednik
Doc. dr Jelena Nikolic

He is working very successfully in the Ministry of Defence of Serbia from 2000 up to today, and onwards.

During 2004-2009, he has successfully passed 5 years program of specialization of plastic and reconstructive surgery, with excellent mark, at the Military Medical Academy, Belgrade, Serbia.

After 6 years of work, he has finished his doctoral thesis, and he has got a PhD diploma in the field of Medical sciences, on 2018, at the Medical faculty of the Military Medical Academy, University of Defence in Belgrade.

Sekretar
Dr Milica Rajovic

During his studying of medicine (1991-1997), he was teaching instructor at the Institute of medical physiology in the period 1993-1997, and he was teaching assistant of plastic and reconstructive surgery at the Medical faculty of the Military Medical Academy, University of Defence in Belgrade, during 2012-2018.

He was a Secretary General of Serbia in the Balkan Military Medical Committee (BMMC) during 2013-2018, organized several congresses, and become Honorary Member of BMMC.

During 2016-2020 he was a president of the Serbian Wound Healing Society (SWHS), and from 2016 and onwards he is an official Cooperating Organisation Representative of SWHS in the European Wound Management Association (EWMA).

During 2020-2021 he was working in the red zone in the Covid-19 Military hospital in Belgrade.

He is successfully doing all surgical procedures in the field of plastic, reconstructive and aesthetic surgery, as well as conservative procedures in the field of chronic wounds. He has published and presented many scientific papers, in the international journals, and on the international congresses, including world congress of chronic wounds.

He has teaching title Assistant professor of plastic surgery and burns, at the Medical faculty of the Military Medical Academy, University of Defence in Belgrade, and scientific title Scientific associate, at the Ministry of Science, Technological Development and Innovation of Republic of Serbia.

LETTER OF RECOMMENDATION

Sasa Milicevic, MD, PhD, specialist in plastic and reconstructive surgery, Head of Department for septic burns, Department of burns, Clinic for plastic surgery and burns, Military Medical Academy, Ministry of Defence, Serbia, visited the Department of Plastic Surgery and Hand Surgery of the University Hospital Zurich (Switzerland) from September the 29th 2022 to November the 2nd 2022.

During his stay, Dr Milicevic participated to all clinical and training activities of our Department in the operating rooms, outpatients' clinics and burn unit. His interests are very broad and extend from hand surgery, to plastic surgery, treatment of burns and chronic wounds. Beside the clinical activities, Dr Milicevic, was introduced to our organization from the department to the hospital as a whole. He could also attend the hand therapy department and other rehabilitation institutions that collaborate with us.

During his stay, he presented his very interesting past and actual clinical and research activities.

The University Hospital Zurich is one of the biggest medical centers in Switzerland with 850 beds and more than 8000 employees. Dr Milicevic could participate to many different operations in our two structures, the main Campus and the Circle outpatient center. In particular, he was involved in reconstructive procedures with skin grafts or flaps, hand surgery, gender reassignment, lymphatic surgery, burns and tumor reconstruction (malignant skin tumors and sarcomas).

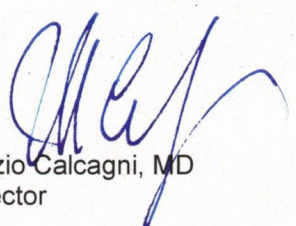

During the same period, he was also able to visit the Burn Unit and learn its organization.

Parallel to the work in our Department, Dr Milicevic, attended the Interdisciplinary Wound Centre we build together with the Clinic for Dermatology and Vascular Surgery. In this Centre, he could participate to outpatients clinics, case discussions and wound treatments with all the different techniques we offer to our patients.

Dr. Milicevic was very welcome by all colleagues and demonstrated high competence and experience. He was always very punctual, kind, interested and asked many pertinent questions to expand his knowledge.

In conclusion, it was a real pleasure to have Dr. Milicevic in our Department and I wish him a bright career in clinical, scientific and teaching activities. Thanks to his human qualities, professional and scientific skills Dr. Milicevic can aim to the best positions.

Sincerely,

Prof. Maurizio Calcagni, MD
Deputy Director

INSTITUTO DE CIRURGIA PLÁSTICA CRANIOFACIAL
SOBRAPAR

Sociedade Brasileira de Pesquisa e Assistência para a Reabilitação Craniofacial

OFICIO 053/97

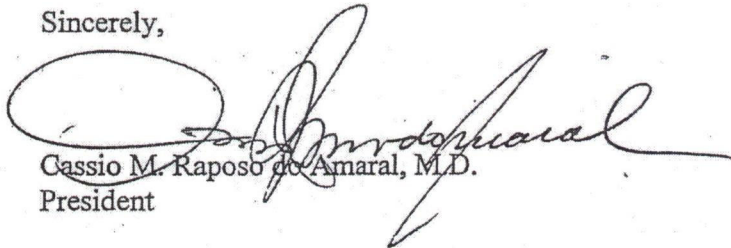

February 20, 1997

TO WHOM IT MAY CONCERN

This is to state that Sasa Milicevic, a medical student from Belgrade University, observed with attention and interest the clinical, teaching, and experimental work done at our institution from January 15th through the 31st, 1997.

Sobrapar is an Institute committed to the treatment and rehabilitation of individuals with craniofacial deformities.

Sincerely,

Cassio M. Raposo do Amaral, M.D.
President
