ABOUT EWMA INNOVATION TEAM

EWMA Innovation Team offers support to companies with a focus on wound healing assisted by our global network of high-level experts. Below are listed some of our most requested services:

TECHNOLOGY

We assist technology development with KOL focus groups, scientific advisory boards and other clinical expert advisory.

CLINICAL

We assist with planning clinical trials, propose trial sites and lead investigators, ensure contact to sites and advise on choice of CRO.

REGULATORY

We advise on FDA and EMA requirements, provide second opinions, and analyse product health economics.

BUSINESS DEVELOPMENT

We offer road map preparation, estimation of company market value, preparation of investor pitching deck, advisory board participation and ad hoc advisory.

MARKET

We ensure relevance by feedback from KOLs and HCPs and offer participation in EWMA New Tech documents with unrestricted grants.

CONSORTIA

We join externally financed research and innovation consortia typically performing any of the services listed above as partners or subcontractors.

EWMA DIABETIC FOOT VALLEYS

We offer participation in regional hubs facilitating access to clinical trials, implementing guidelines and offering courses and training.

Contact us for a dialogue on your tailored support delivered by the high-level EWMA KOLs and experts.
